

I am concerned that my favorite radio station 90.7 Air 1 may be taken out of my listening area. This station provides me and other listeners with a positive alternative to other local stations. Air 1 promotes positive and encouraging music to my community. This station is one the whole family can listen too, without any worry that something vulgar or rude will be said. Without this station the public would not have access to all the great music and it would narrow the public's choices of a vareity of stations in my area. I would appreciate that you allow me to continue to enjoy Air 1 by not letting LPFM take priority over Air 1's FM translators. Thank you!
